USB TAIL RevA / NO FAB. R112/R113 remain on mainboard. No PD/current advertisement detection.

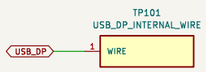

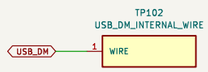

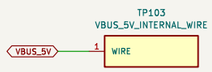

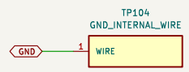

U102 NC 6/7/9/10 are optional straight-through PCB pads per TI; no internal chip connection assumed.

Wire lands are real assembly interfaces requiring harness/strain relief qualification, NOT completed pen interconnects.

J101 shell is grounded at all four S1 pads. Keep VBUS TVS/ESD ground paths short. USB100 default policy unchanged.
